

## Blank plastic cards (PVC)

---

Evolis cards are the ideal support for outstanding printouts.

Their even and flat surface ensure flawless moves under the printhead (minimizing the risk of printhead damage) and printouts with vivid colors and well-defined barcodes.

Evolis cards are compliant with ISO CR-80 standards and delivered in a dust-free sealed packaging to help you get a better print quality.

1- Classic Plastic Cards (in PVC)

*The Classic cards can be used with both Evolis color and monochrome printer range and provide high image quality. The Classic line is available in 30 mil, blank or with magnetic stripe (LOCO or HICO) and also blank in 20 mil. The cards are delivered in boxes of 5 sealed packs of 100 cards.*

2 - Premium Plastic Cards (in PVC)

*The Premium cards can be used with both Evolis color and monochrome printer range and provide very high image definition. The Premium line is especially recommended when detailed color and monochrome images or/and barcodes are needed. The Premium cards are available in 30 mil thickness, blank or with magnetic stripe (LOCO or HICO). The cards are delivered in boxes of 5 dustproof sealed packs of 100 cards.*
